

THRONMAX

THRONMAX ZONE XLR MICROPHONE KIT

THRONMAX MDRILL ZONE PROFESIONAL XLR MICROPHONE KIT

With VERTIGAIN® technology helps to increase quality and clarity by up to 10% compared to other digital XLR microphones. As sound waves move in a vertical direction, the wave reaches the single 25mm condenser without being scattered by any microphone mesh.

Multipurpose small-diaphragm microphone

Warm sound with extra clarity at the top end

25MM condenser high-class microphone

Perfect for Vocals, Acoustic Guitars, Youtubers, podcast and voice-work

Capsule size:25MM

Frequency range:25HZ-20Khz

Polar Pattern: Cardioid

Sensitivity:15mV/Pa output

Impedance:150ohms

Pre Attenuation switch:0db,10dB

High pass Filter:6dB/octave@150Hz

The MDrill Zone condenser microphone has a smooth, flat, wide-range frequency response appropriate for music and speech in all professional audio applications.
